

Sankara Eye Foundation is a non profit organization dedicated to eradicating curable blindness. So far we have performed over 550,000 free eye surgeries for the poor. Our hospitals offer the highest quality eye care and are designed to become self sufficient in 5 years after inception. Currently we have 8 hospitals serving the needy and poor in India . As a part of our Vision 20/20 by the year 2020 goal, our next major step is to provide quality eye care to the needy in the state of Punjab. Land has been acquired on Ferozepur Road in Ludhiana, with a goal to start construction by August 2010.

You are cordially invited to  
Sankara Eye Foundation, Focus Punjab Banquet
